Just the black color and red color not too close
in order to make our design we need to know what you can print and not
Read
so they need to be separated by what length?
Read
1mm for example?
Read
2-3mm like that
Just not cross is ok
is there any other considerations before i tell our designer to re-do it?

You can take the 3 star and A40 on it

Others are ok.

Coz the final one I have to check with my team if ok or not

yes, that's why we need to know the limitations

Ok

yes? for example: max size is 2x2cm is a limitation

Read

that we cannot print red closer than 2mm to black is a limitation

are there others?

all these things are important to the designer :-)

More easy would be better, which make them printed not so hard to print them clear.
Coz if your side bigger, our person will smaller it.
So no worry the side.

don't smaller anything!

Yes please

Ok.

Ok i see
I guess the agent must be in contact with GLS about the new documents we signed?

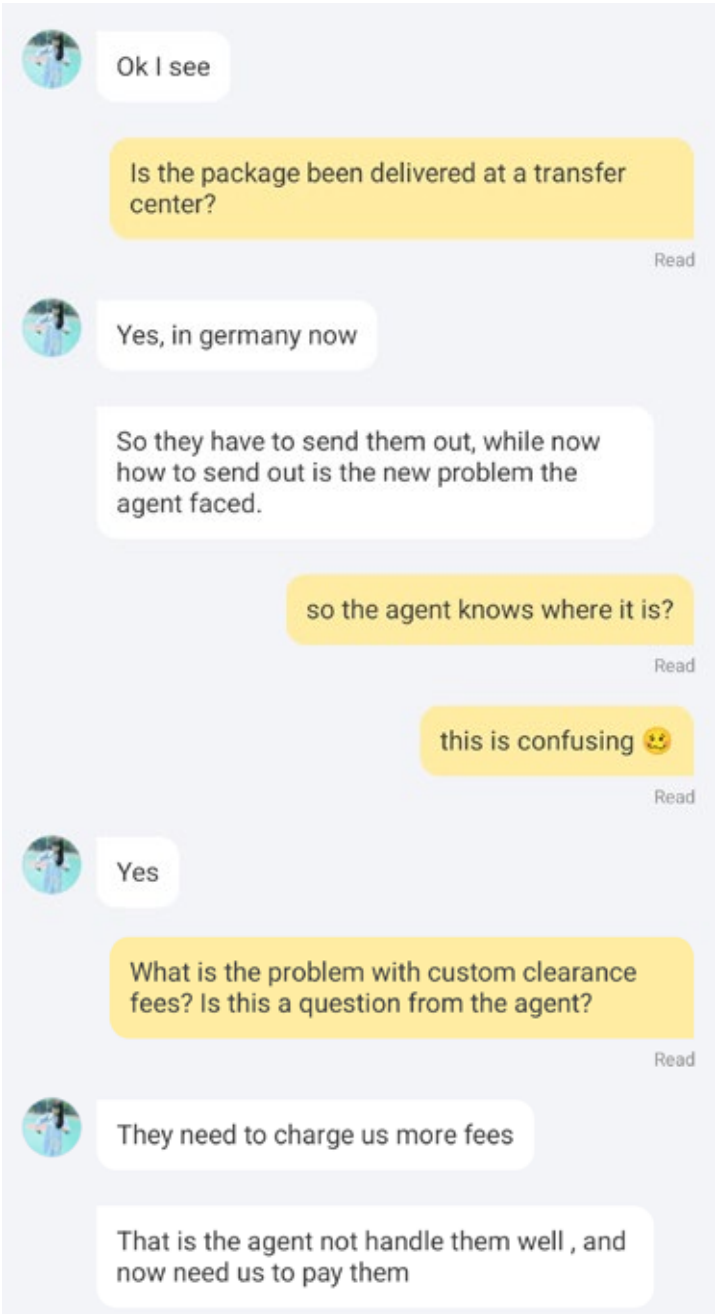
Coz Germany is the biggest transfer center, so they send to there, now o may ask the agent how to do it
If you have any German address can be shipped the goods, dear?
No, absolutely not.
Read



Ok I see
Is the package been delivered at a transfer center?
Read
Yes, in germany now
So they have to send them out, while now how to send out is the new problem the agent faced.
so the agent knows where it is?
Read
this is confusing 🥲
Read
Yes
What is the problem with custom clearance fees? Is this a question from the agent?
Read
They need to charge us more fees
That is the agent not handle them well , and now need us to pay them

If the agent didn't handle it well, the agent should fix it?

Read

No, they need us to pay more money, otherwise the GSL will destroy all the goods 😅

The incoterms are clear

Read

Germany is not Norway

Read

Yes, so that is why only they can handle them

Who they?

Read

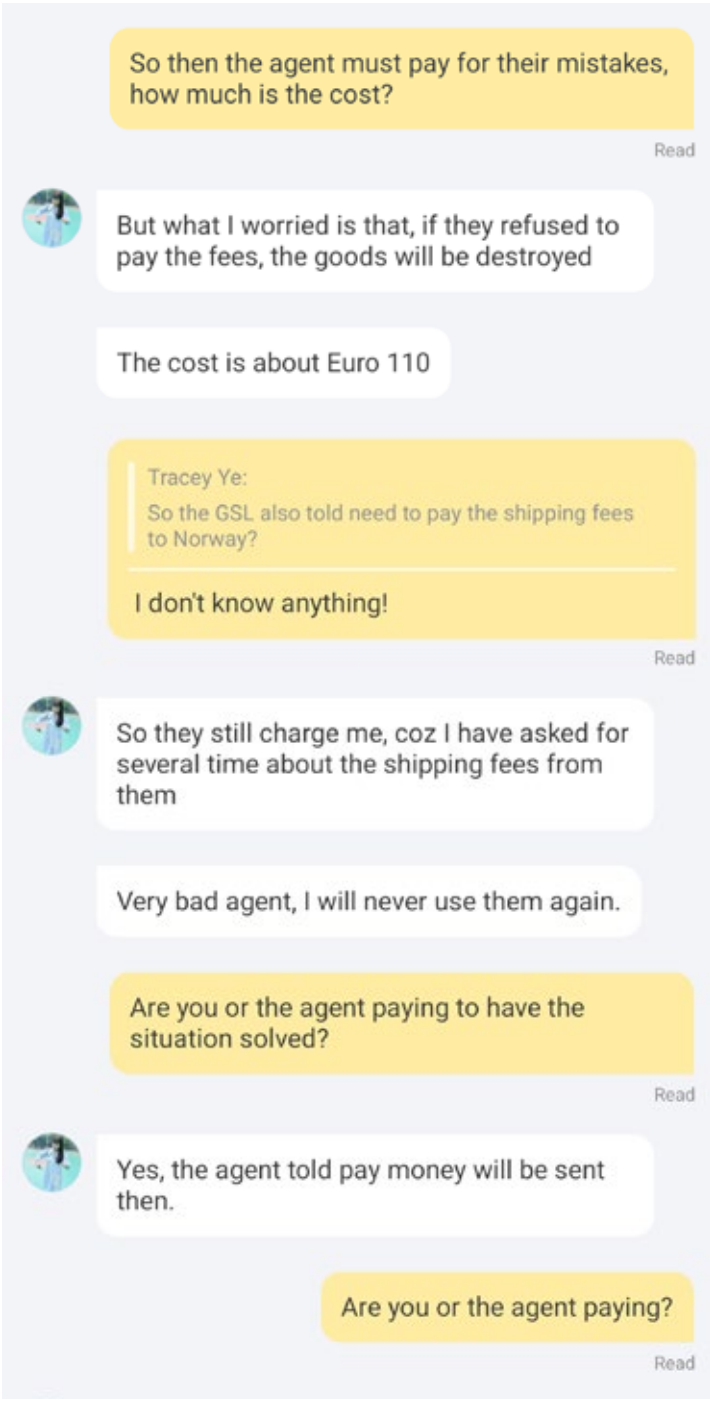
The agent. I

Yes, but they also need to pay what is needed to get the shipment to Norway!

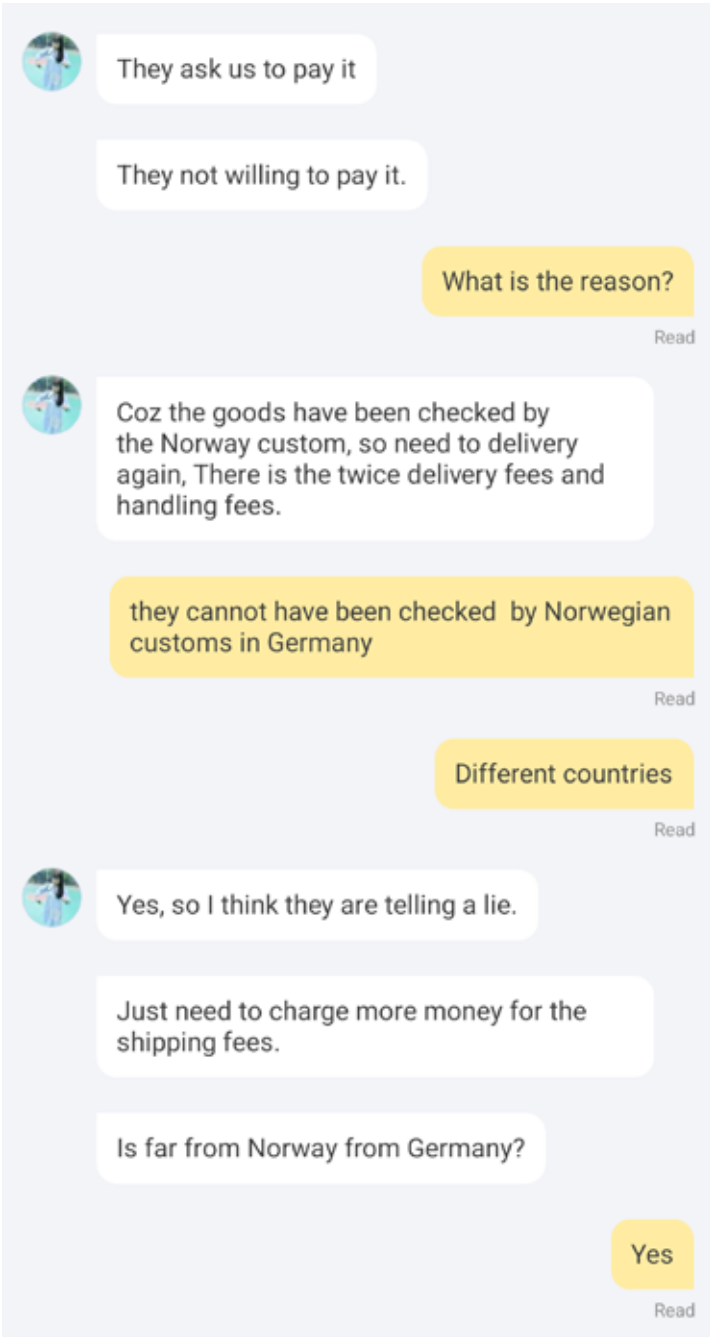
Read

I have cooperated with them for long time. But only this time face the big problem.

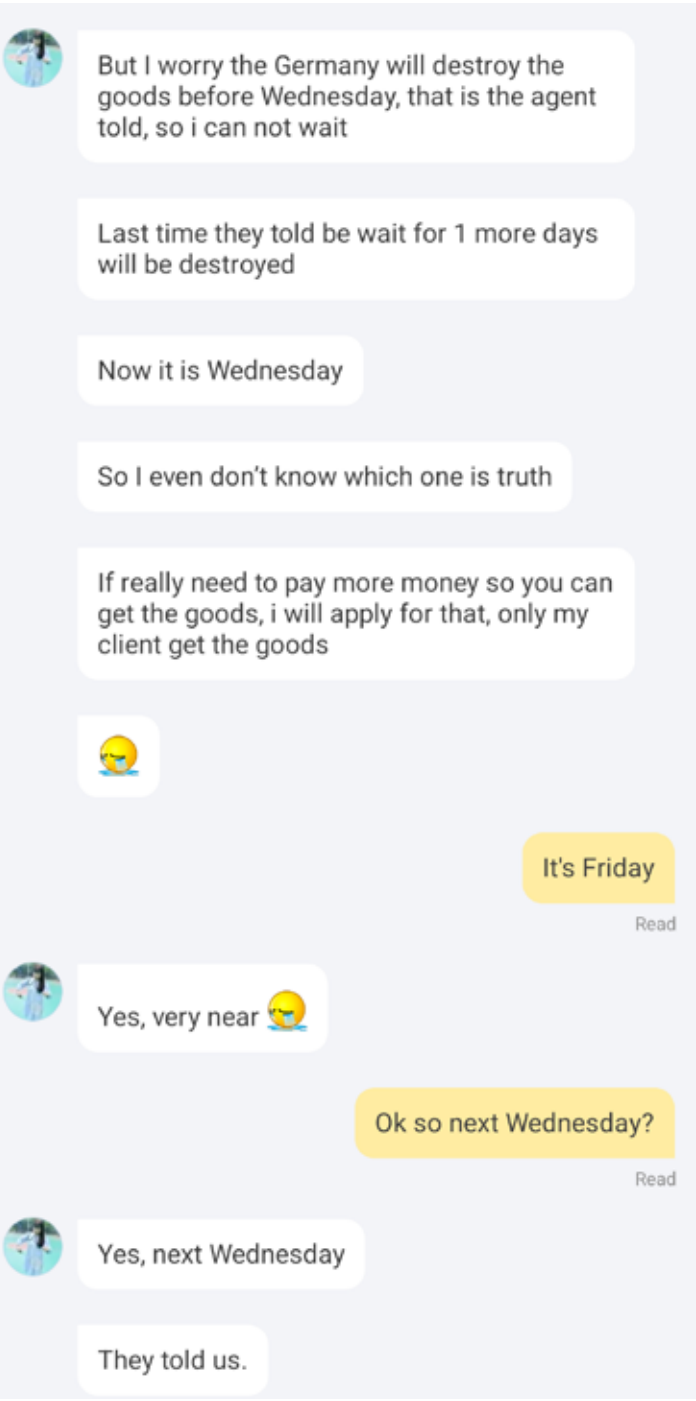
So the GSL also told need to pay the shipping fees to Norway?



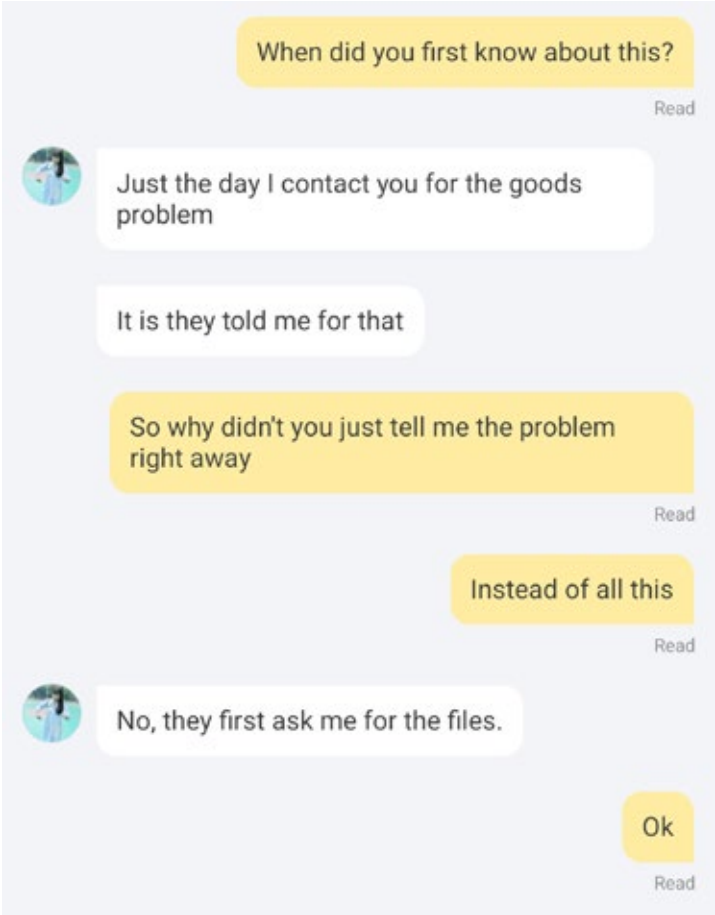
So then the agent must pay for their mistakes, how much is the cost?
Read
But what I worried is that, if they refused to pay the fees, the goods will be destroyed
The cost is about Euro 110
Tracey Ye:
So the GSL also told need to pay the shipping fees to Norway?
I don't know anything!
Read
So they still charge me, coz I have asked for several time about the shipping fees from them
Very bad agent, I will never use them again.
Are you or the agent paying to have the situation solved?
Read
Yes, the agent told pay money will be sent then.
Are you or the agent paying?
Read



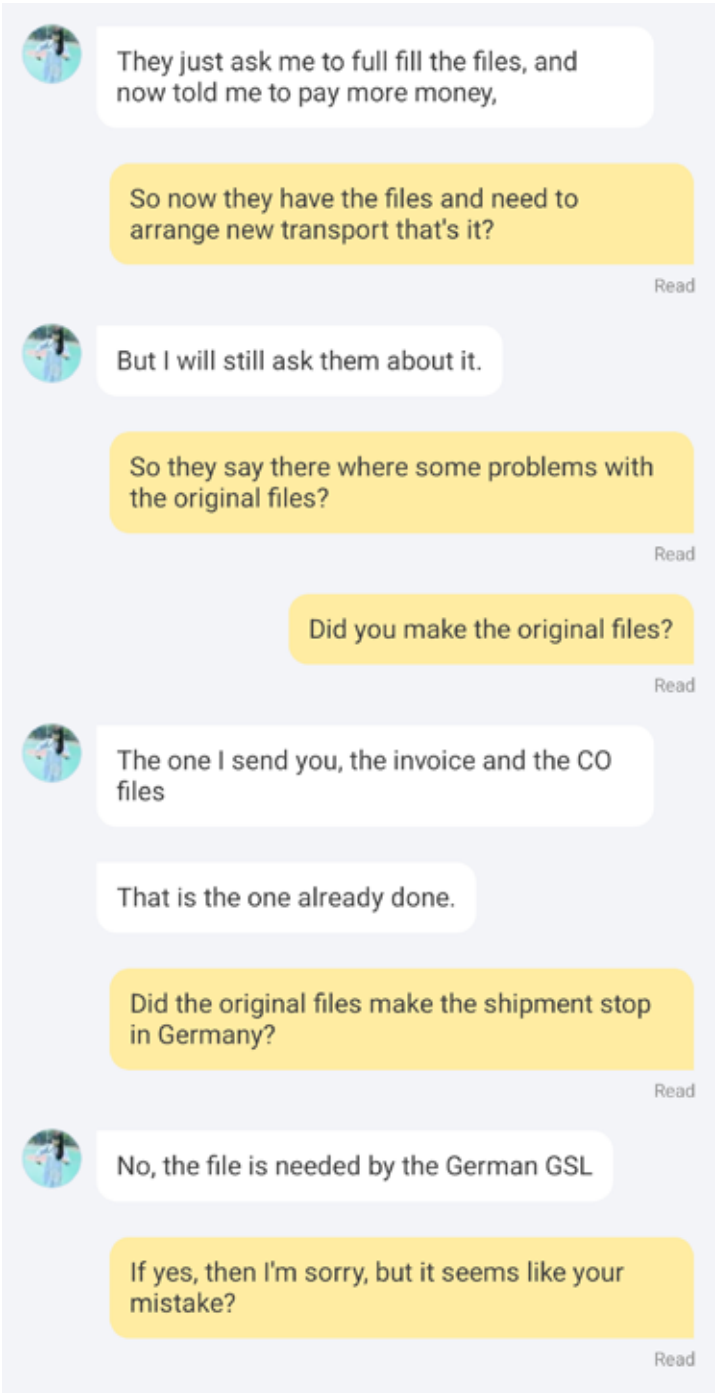
They ask us to pay it
They not willing to pay it.
What is the reason?
Read
Coz the goods have been checked by the Norway custom, so need to delivery again, There is the twice delivery fees and handling fees.
they cannot have been checked by Norwegian customs in Germany
Read
Different countries
Read
Yes, so I think they are telling a lie.
Just need to charge more money for the shipping fees.
Is far from Norway from Germany?
Yes
Read



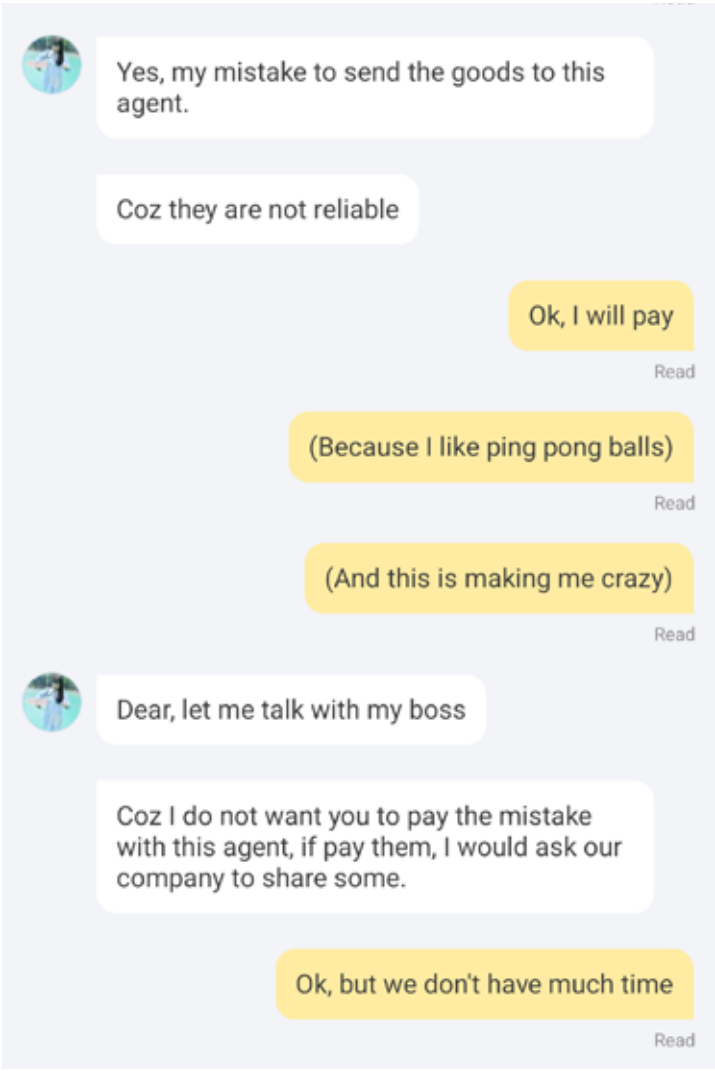
But I worry the Germany will destroy the goods before Wednesday, that is the agent told, so i can not wait
Last time they told be wait for 1 more days will be destroyed
Now it is Wednesday
So I even don't know which one is truth
If really need to pay more money so you can get the goods, i will apply for that, only my client get the goods
It's Friday
Read
Yes, very near
Ok so next Wednesday?
Read
Yes, next Wednesday
They told us.



When did you first know about this?
Read
Just the day I contact you for the goods problem
It is they told me for that
So why didn't you just tell me the problem right away
Read
Instead of all this
Read
No, they first ask me for the files.
Ok
Read



They just ask me to full fill the files, and now told me to pay more money,
So now they have the files and need to arrange new transport that's it?
Read
But I will still ask them about it.
So they say there where some problems with the original files?
Read
Did you make the original files?
Read
The one I send you, the invoice and the CO files
That is the one already done.
Did the original files make the shipment stop in Germany?
Read
No, the file is needed by the German GSL
If yes, then I'm sorry, but it seems like your mistake?
Read



Yes, my mistake to send the goods to this agent.
Coz they are not reliable
Ok, I will pay
Read

Read
(And this is making me crazy)

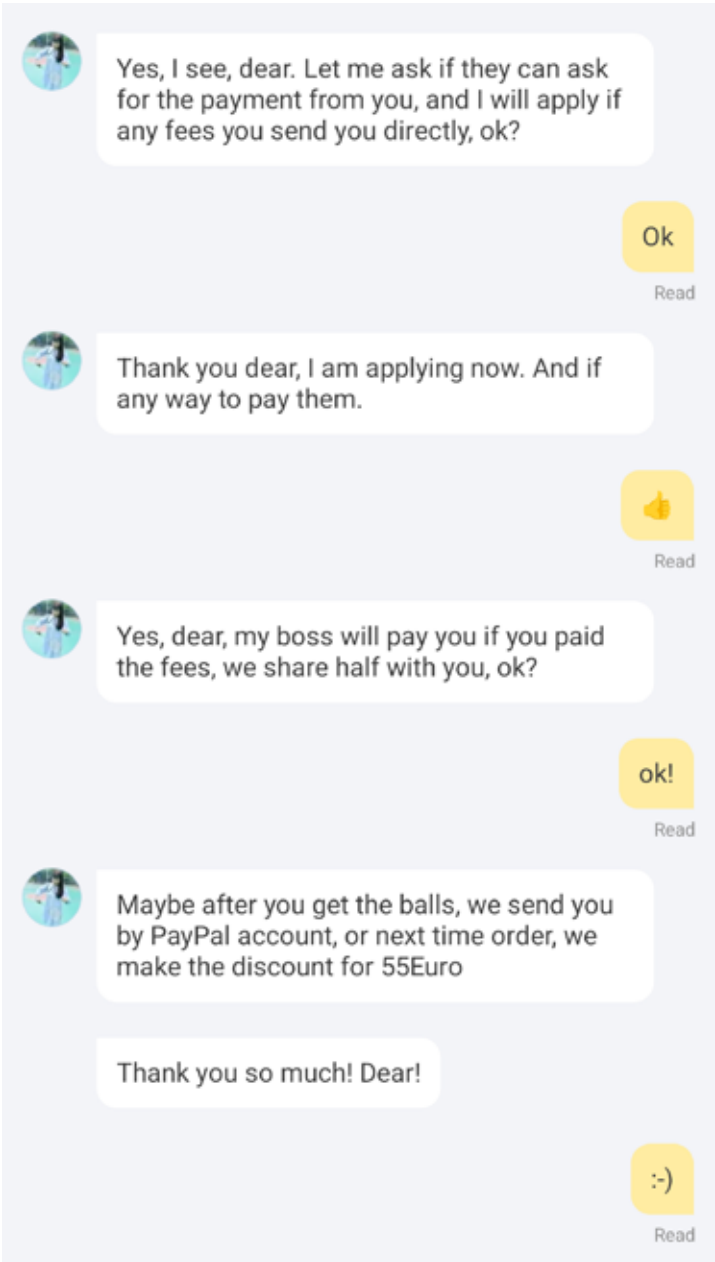
Dear, let me talk with my boss
Coz I do not want you to pay the mistake with this agent, if pay them, I would ask our company to share some.
Ok, but we don't have much time
Read



Yes, I see, dear. Let me ask if they can ask for the payment from you, and I will apply if any fees you send you directly, ok?
Ok
Read
Thank you dear, I am applying now. And if any way to pay them.

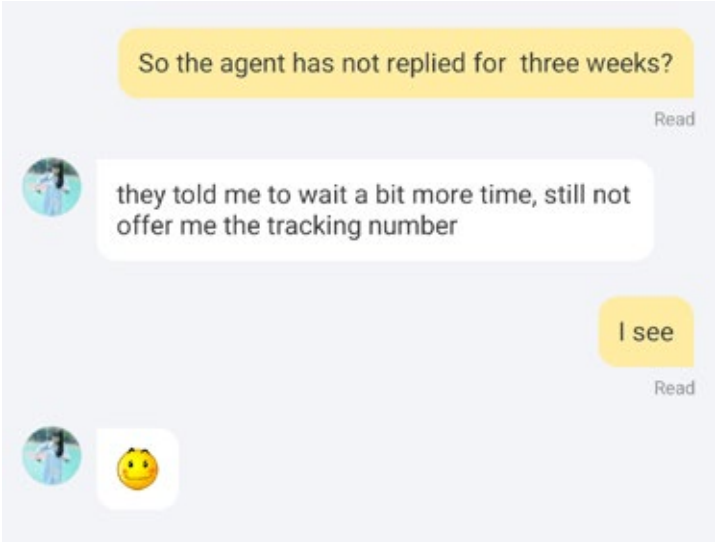
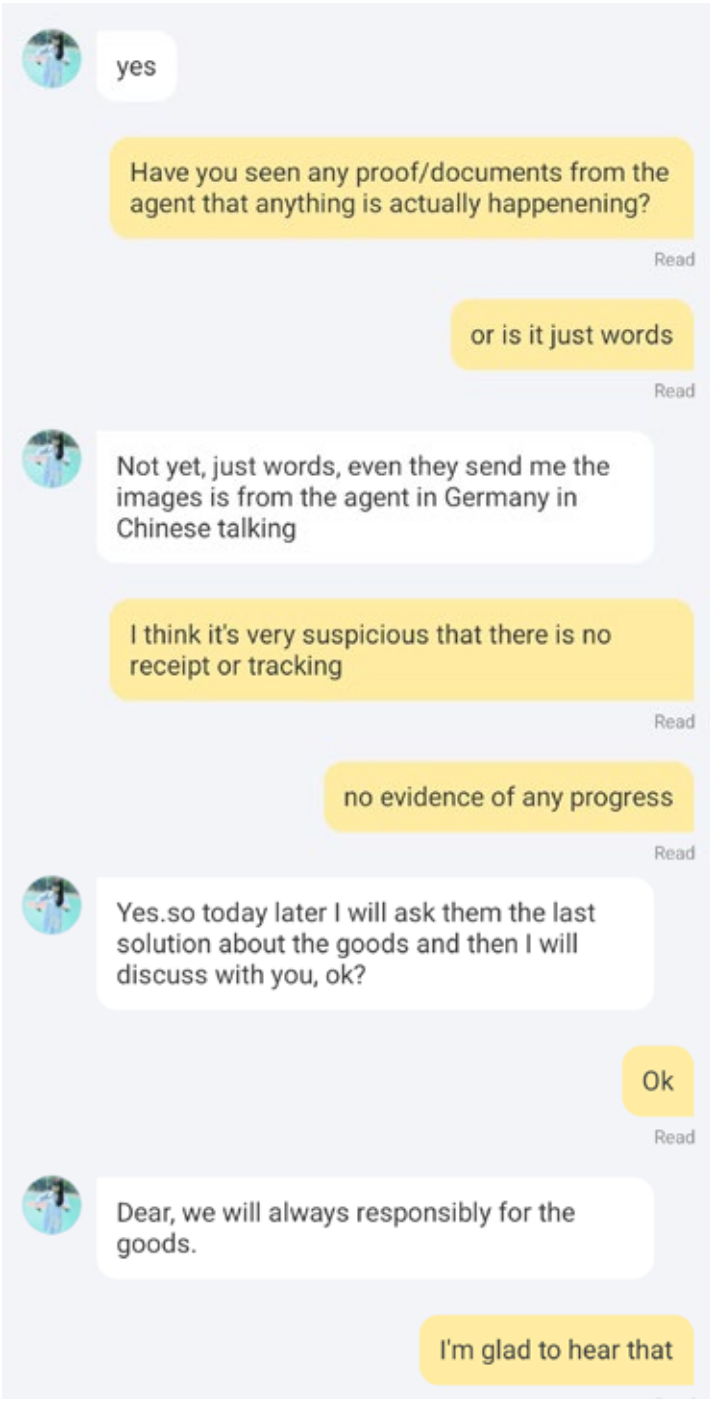
Hi Tracey and happy new year!
Read
hi deawr einar, happy new year
I see you want to update the contract, is there any news?
Read
for the tracking number, i am still waiting the agent update me the news, they still not send me the tracking number yet.
so i do not have the tracking number, i have to update the time avoid to delay
Ok. So the latest information is that we still are in a que?
Read
yes, they still not update me, so need to wait a bit more time. i still wait them to share me the news, i have asked them every day

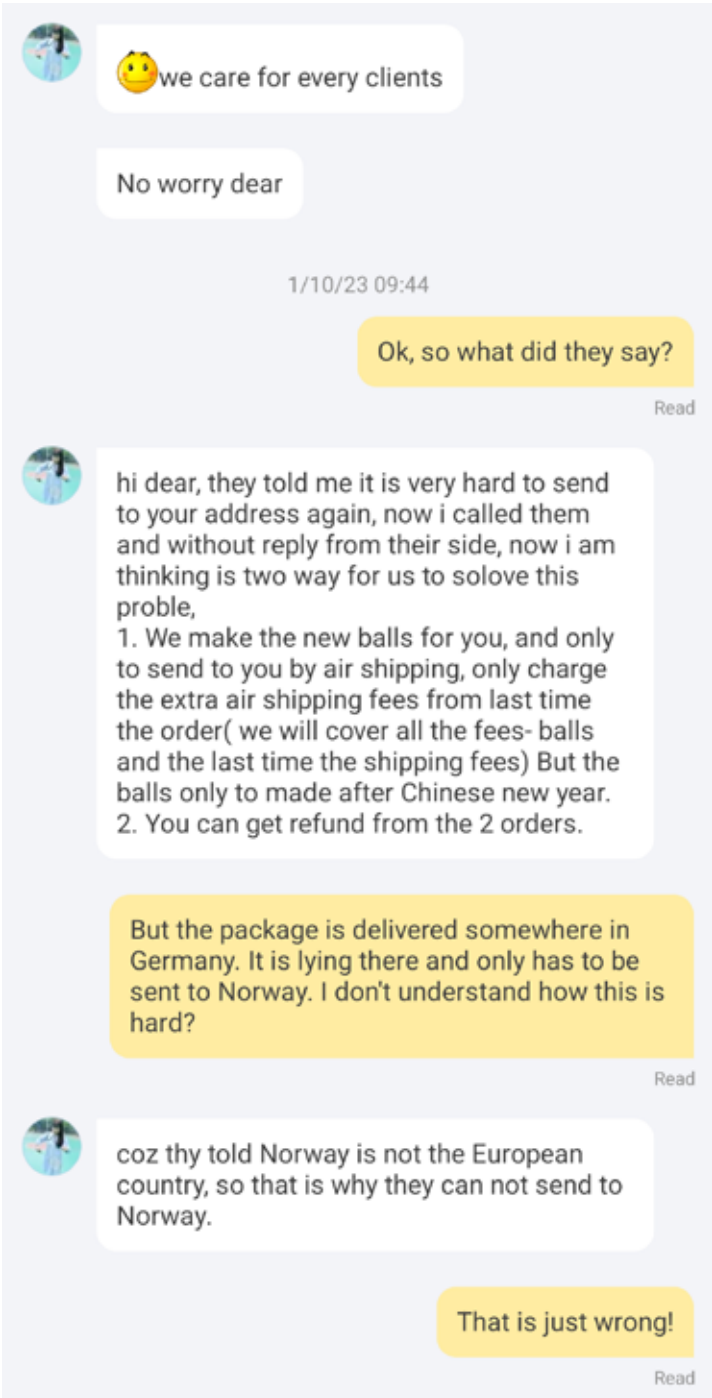


So the agent has not replied for three weeks?
Read
they told me to wait a bit more time, still not offer me the tracking number
I see
Read

1/6/23 15:15
Are you in direct contact with your agent? Have you called them?
Read
Called, they still need me to wait the news yet
It seems very strange to not respond
Read
Coz last time they told need to wait in queue.
We don't really have the time to sit and wait for this
Read
So we wait her to do the arrangement
Let me ask them if next week have news or not? Ok?
1/8/23 17:33
Are you satisfied with the service that you have received from this supplier?
Click here to rate
Ok, please ask



yes
Have you seen any proof/documents from the agent that anything is actually happenening?
Read
or is it just words
Read
Not yet, just words, even they send me the images is from the agent in Germany in Chinese talking
I think it's very suspicious that there is no receipt or tracking
Read
no evidence of any progress
Read
Yes.so today later I will ask them the last solution about the goods and then I will discuss with you, ok?
Ok
Read
Dear, we will always responsibly for the goods.
I'm glad to hear that



we care for every clients
No worry dear
1/10/23 09:44
Ok, so what did they say?
Read
hi dear, they told me it is very hard to send to your address again, now i called them and without reply from their side, now i am thinking is two way for us to solove this proble,
1. We make the new balls for you, and only to send to you by air shipping, only charge the extra air shipping fees from last time the order(we will cover all the fees- balls and the last time the shipping fees) But the balls only to made after Chinese new year.
2. You can get refund from the 2 orders.
But the package is delivered somewhere in Germany. It is lying there and only has to be sent to Norway. I don't understand how this is hard?
Read
coz thy told Norway is not the European country, so that is why they can not send to Norway.
That is just wrong!
Read

Doesn't make sense at all. We are in Europe and we have a mail system that is working.

Read

so that is our mistake to find such a shipping company, now they not reply us and not pick up the call.

So now we do want to make new ones to send you, but only to send by air shipping now

You must have a receipt/invoice for the extra shipping we paid?

Read

wait me a bit time

And what about the que we are in, is that just wrong information?

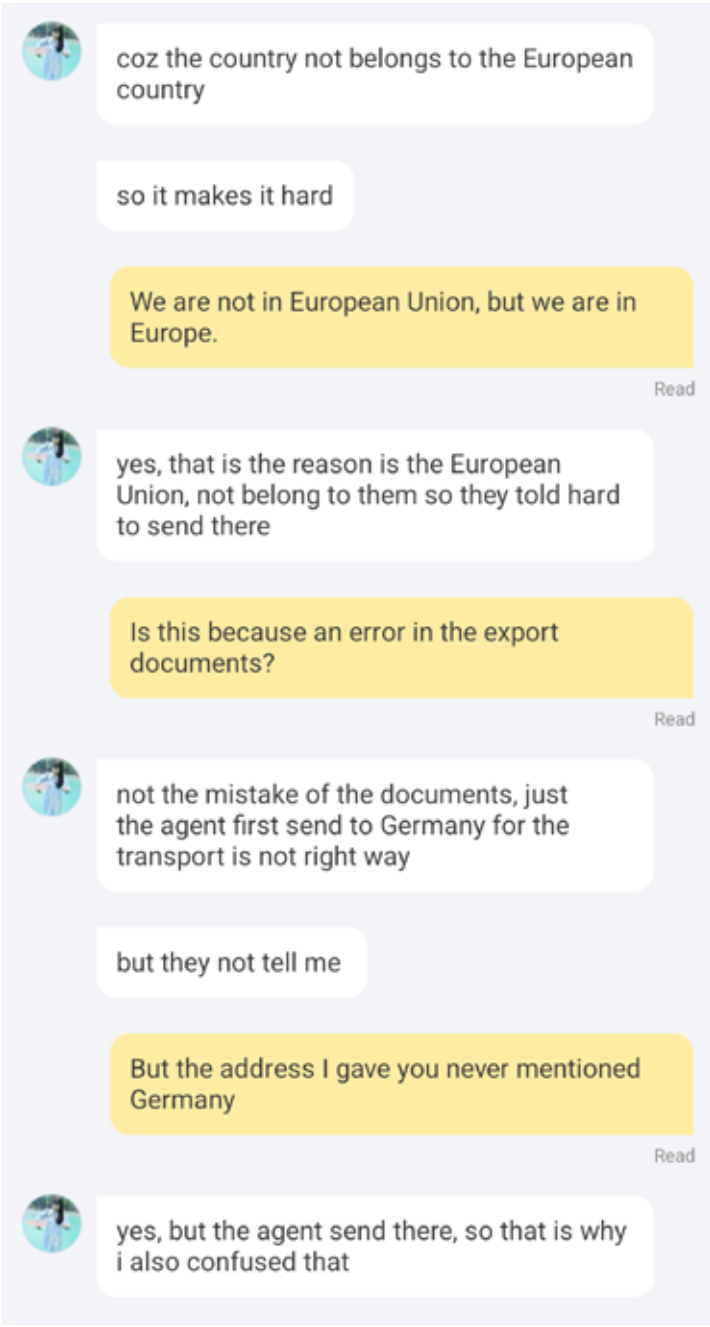
Read

they have tried, but still can not send to Norway again

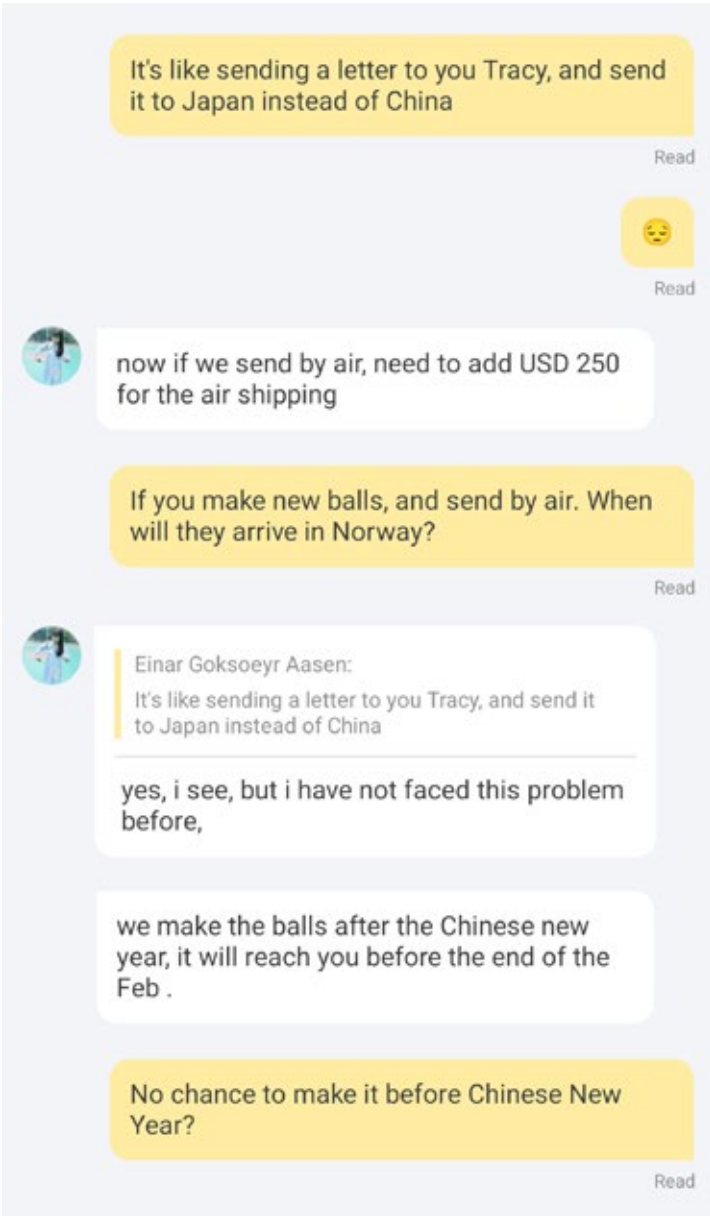
and the fees also we have paid to him, like the CO we had also made to him, but no use

But what is the reason they cannot send?

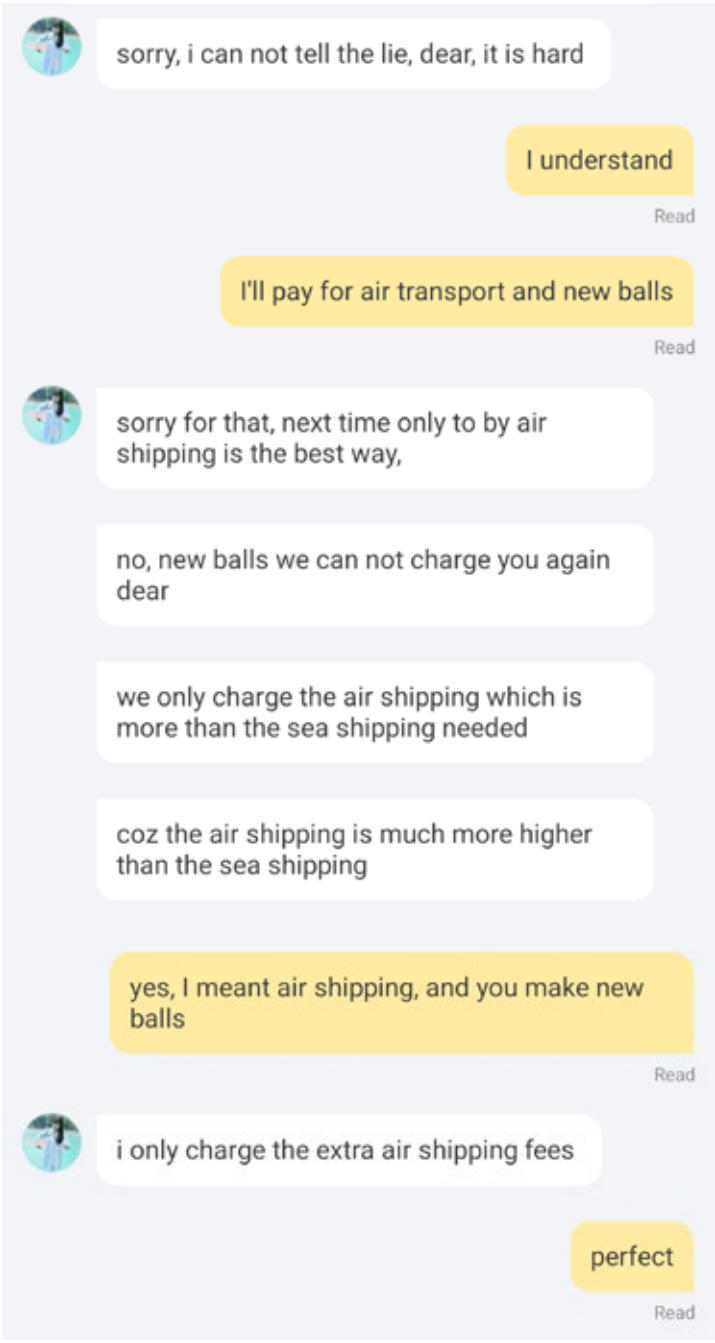
Read



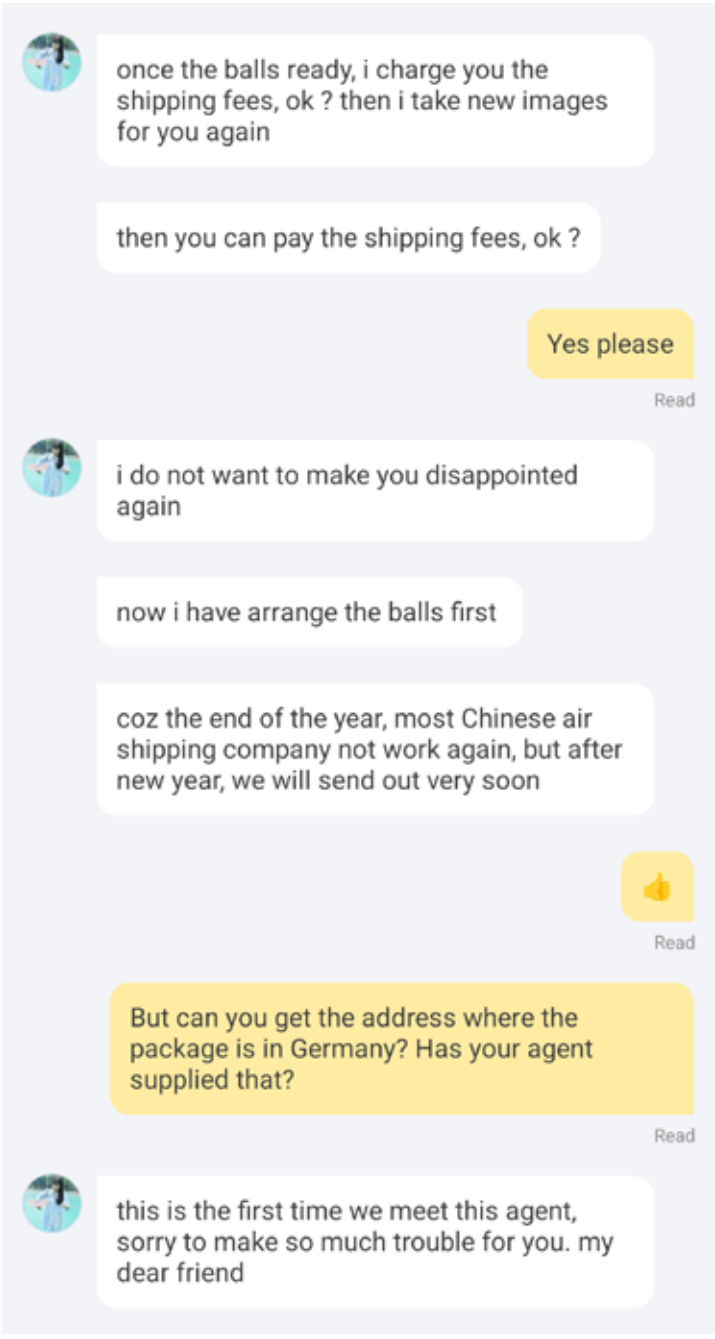
coz the country not belongs to the European country
so it makes it hard
We are not in European Union, but we are in Europe.
Read
yes, that is the reason is the European Union, not belong to them so they told hard to send there
Is this because an error in the export documents?
Read
not the mistake of the documents, just the agent first send to Germany for the transport is not right way
but they not tell me
But the address I gave you never mentioned Germany
Read
yes, but the agent send there, so that is why i also confused that



It's like sending a letter to you Tracy, and send it to Japan instead of China
Read
Read
now if we send by air, need to add USD 250 for the air shipping
If you make new balls, and send by air. When will they arrive in Norway?
Read
Einar Goksoeyr Aasen:
It's like sending a letter to you Tracy, and send it to Japan instead of China
yes, i see, but i have not faced this problem before,
we make the balls after the Chinese new year, it will reach you before the end of the Feb .
No chance to make it before Chinese New Year?
Read



sorry, i can not tell the lie, dear, it is hard
I understand
Read
I'll pay for air transport and new balls
Read
sorry for that, next time only to by air shipping is the best way,
no, new balls we can not charge you again dear
we only charge the air shipping which is more than the sea shipping needed
coz the air shipping is much more higher than the sea shipping
yes, I meant air shipping, and you make new balls
Read
i only charge the extra air shipping fees
perfect
Read



once the balls ready, i charge you the shipping fees, ok ? then i take new images for you again
then you can pay the shipping fees, ok ?
Yes please
Read
i do not want to make you disappointed again
now i have arrange the balls first
coz the end of the year, most Chinese air shipping company not work again, but after new year, we will send out very soon
👍
Read
But can you get the address where the package is in Germany? Has your agent supplied that?
Read
this is the first time we meet this agent, sorry to make so much trouble for you. my dear friend

they only offer me the phone number last time i send you

I see.

Read

let me find out again

+32 (0)2 55 66 211 this is the GLS germany number

and the tracking number is : 85212622655(GLS)

The phone number was only the shipping company, not a specific office.

Read

these are all the information they offer me

ok, that won't help much.

Read

06677 64690700 how about this one ?

yes, maybe still can not reach them

so i quit, i make new ones,

Yes, new ones please.

Read

yes, they will make asap

once ready, i will send you photos again

Thank you!

Read

Another option maybe, I have an address in Sweden which is a EU country

Read

Could that help?

Read

To get the package redirected there

Read

If EU is the main problem

Read

Yes? Could you share me to have a try?

I need to call the agent, hope if they will pick up my phone

Kindly share me address first

Yes, just a minute. I need to get the address from a friend first.

Read
